WHO WE ARE

The Light Solution offers a unique service level of high quality branded lighting products at competitive prices supported by excellent product knowledge and unrivalled service levels, making us the ideal lighting supply partner for all industry areas.

What we do

With extensive knowledge and over 20 years industry experience you will benefit from technical, design led advice to ensure your lighting is maximised and suits the functionality required, whilst maintaining the required ambience of the area.

We can help you by

- Adding our technical product knowledge
- Sourcing the best product for the environment
- Providing lighting surveys and ROI reports
- Supporting design and lighting specifications
- Understanding your requirements
- Offering full project management

We provide our customers with dedicated, specialist lighting support and, with our extensive product knowledge, ensure that the best solutions are provided for each area or project.

What can you expect as a customer of The Light Solution?

As a customer you can expect:

- Industry leading customer service, supported by our ISO 9001 registration
- £2m UK stock holding of world leading brands for next day delivery
- Personalised approach - your information and reports are built around your requirements
- Dedicated account management
- Integration with online ordering systems
- Online ordering portal - coming soon
- Bespoke tailoring of products
- Competitive pricing

Handy Lamp Shape Guide

Modern lamps come in a variety of different shapes and sizes and, needless to say, it can get confusing.

Why so many? Modern lamps are now used in a variety of different fixtures, and each fixture has its own unique set of requirements when it comes to the size, shape and the way the light bulb projects its light.

In order to help you understand which shapes and sizes you'll need, we've come up with the guide on the opposite page.

Here's our guide to finding the right vintage lamp for your room or space.

Decorative or vintage bulbs provide the perfect ambiance to any environment.

Available in a variety of styles and finishes, bulbs and fittings, they help to create lighting that compliments your interior design and gives the area being lit a place where people feel comfortable and have a positive experience.

Vintage Lamp Types

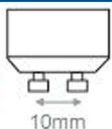

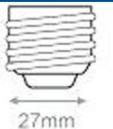

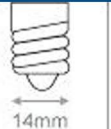

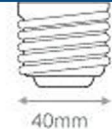

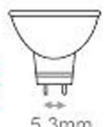

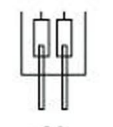

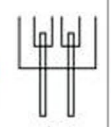

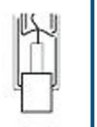

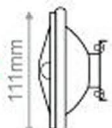

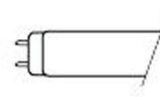

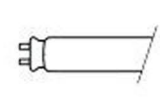

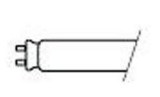

Contact us today to discuss how we can help you find the right vintage light solution.

Guide to Lamp Caps and Bases

The part of the lamp or light bulb that connects into the light fitting is generally known either as the “cap” or “base”. This provides the electrical contact and also often the physical location of the lamp.

A vast variety of caps and bases exist in order to help make sure that only the correct type of lamp is used in any given fitting. This table below shows the wide variety of popular fittings:

<p>GU10</p>  <p>10mm</p> <ul style="list-style-type: none"> Mains Voltage (240V) Spot Light 	<p>BC</p>  <p>22mm</p> <ul style="list-style-type: none"> Bayonet Cap (Also known as BC or B22) 	<p>ES</p>  <p>27mm</p> <ul style="list-style-type: none"> Edison Screw (Also known as ES or E27) 	<p>SBC</p>  <p>15mm</p> <ul style="list-style-type: none"> Small Bayonet Cap (Also known as SBC or B15) 	<p>SES</p>  <p>14mm</p> <ul style="list-style-type: none"> Small Edison Screw (Also known as SES or E14) 	<p>GES</p>  <p>40mm</p> <ul style="list-style-type: none"> Giant Edison Screw (Also known as GES or E40)
<p>GU5.3</p>  <p>5.3mm</p> <ul style="list-style-type: none"> Low Voltage MR16 (12V) Spot Light 	<p>GU4</p>  <p>4mm</p> <ul style="list-style-type: none"> Low Voltage MR11 & MR8 (12V) Spot Light 	<p>G9</p>  <p>9mm</p> <ul style="list-style-type: none"> Mains Voltage (240V) Capsule 	<p>G4</p>  <p>4mm</p> <ul style="list-style-type: none"> Low Voltage (12V) Capsule 	<p>GY6.35</p>  <p>6.35mm</p> <ul style="list-style-type: none"> Low Voltage (12V) Capsule 	<p>R7s</p>  <p>7mm</p> <ul style="list-style-type: none"> Mains Voltage (240V) Linear R7
